

Story Telling Crash Course

Know Your Audience

Who are you looking to capture with your story? What would interest them? Write accordingly

Storyboard

Put together your story concept stage-by-stage, so you can see the whole picture.

Make Them Laugh and Cry

Evoke emotion to have the reader connect with the characters and tantalize their senses with descriptive writing.

Protagonists Help

Give the reader someone to root for! Make the character identifiable to the reader (again, know your audience).
